

VIRGINIA TRACE “GOOD SERVICES LISTING”

Updated as of November 11, 2011

The following listing represents input from various residents who have used these businesses with satisfactory results and would like to share with fellow Virginia Tracers. **If for some reason you feel a certain person or business listed herein is not reliable due to a bad personal experience kindly report this so we can take it under advisement and remove the listing. Also if a business is no longer active please notify us so we can update this list.** Our goal in establishing to furnish this type of list is to provide a helpful resource. If you find any errors, omissions or have any additions for this listing send an e-mail to Jo-Ann Campbell @ westerndancer@msn.com

Point of information.....most businesses will not or should not require up front money. You should be required to pay when the job is completed. There may be some exceptions to that (in the case of large jobs such as putting in a swimming pool, additions, enclosing lanais etc.) – however before making any kind of “down payment” it is always best to check out that person or business to see that they are honest and reliable so that you don't get cheated. Ask for references and take the time to check them out especially on expensive jobs.
